

INTERNSHIP AT DIALOGUE EXPERIENCE

INTRODUCTION

Every year, a group of interns gather at Dialogue Experience (DE)! The DE Internship Program aims to discover and engage outstanding undergraduates in promoting social inclusion. This year, we extend the platform to People of Differences (PoDs) undergraduates by launching the Inclusion & Diversity Ambassador Internship (IDAI) program. Youth with different talents are empowered and trained to be valuable contributors in social or business sectors with solid career development training and real business team projects experience.

INTERN STORY

[I believe I can.]

“

Dialogue Experience has created an inclusive workplace and this valuable opportunity allows me to access to people from different backgrounds. I am determined to continue promoting society inclusion in the future.

(Iris, intern from HKU)

PODS HUMAN LIBRARY

NEW INCLUSIVE POWER (NIP) MOVEMENT

The New Inclusive Power Movement gathered a group of dedicated corporates to decode problems that PoDs encountered in workplace. Innovative and sustainable solutions involving paradigm shifts in business culture have been voiced out.

INCLUSIVE LUNCH

Prepared jointly by interns and DE empower trainees, the inclusive lunch aims to bring to light the benefits of integrating PoDs into event management and spark an initiative to change. PoDs are not necessarily being served!

"Positivity is our drive, Assumption is our barrier"

We have Keith, our deaf colleague and Cicelia, our Visually Impaired (VI) colleague to be the human books to build a platform for conversations that address prejudices and stereotypes through dialogue.
